

Reysta Projects

Innovating for a Better Future

About Resysta A.V. Ltd.

Resysta A.V. has been a dedicated player in the outdoor commercial furniture industry for over 20 years. Our products primarily feature Resysta, an innovative material renowned for its sustainability, durability, and resemblance to natural wood, making it ideal for outdoor applications.

In addition to Resysta, we excel in crafting furniture from a wide range of materials commonly used outdoors, including rattan, wrought iron, aluminum, and stone. Our expertise is backed by a professional R&D team and a comprehensive after-sales service system, ensuring exceptional quality and customer satisfaction.

With manufacturing facilities in both China and Indonesia, we are committed to delivering premium products to our global clientele. At Resysta Marine & Resort, we combine innovation, craftsmanship, and service to create outdoor furniture solutions that exceed expectations.

Resysta - The Better Wood

Discover the Future of Outdoor Furniture

Experience innovation with Resysta, the ultimate material for durable, weather-resistant, and sustainable outdoor furniture. With factories in China and Indonesia, we specialize in premium-quality designs that redefine outdoor luxury.

Visit Us and See the Difference!

We invite you to explore our state-of-the-art production facilities and witness firsthand how Resysta revolutionizes the outdoor furniture industry. Our latest projects, including luxurious resort installations, showcase the superior quality and beauty of our products.

Teak Wood

After
10 years in
the outdoors.

Resysta®

THE TEAK ALTERNATIVE

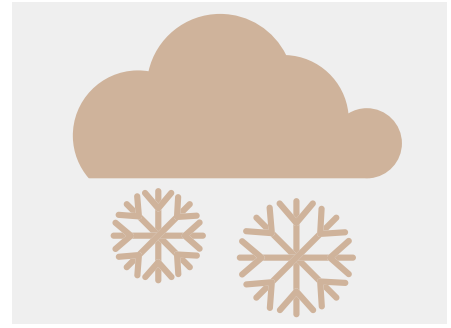

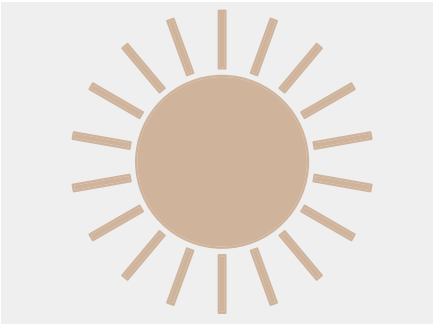

Resysta looks like wood, feels like wood, but is the better wood. Expensive teak furniture greys after a short time and starts to splinter. Choose Resysta® furniture instead, which will remain beautiful in outdoor areas for years to come!

DURABILITY:

Resysta retains its beauty for many years.

UV RESISTANCE:

The material does not grey and remains color-stable.

Resysta - Withstands Every Weather Condition

Garden furniture is constantly exposed to the elements - UV radiation, rain, or even snow. Our furniture made from Resysta is unaffected by any of these: it can even be used outdoors year-round, as the material is UV and water-resistant, and does not lose its beauty.

WEATHER RESISTANCE:

The material can stay outdoors year-round.

PEST RESISTANT:

No insect or fungus can damage Resysta.
